## DISCLAIMER

This presentation includes forward-looking statements. Words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “targets”, “projects”, “may” and similar expressions are used to identify these forward-looking statements. Examples of forward-looking statements include statements made about strategy, production ramp-up and delivery schedules, introduction of new products and services and market expectations, as well as statements regarding future performance, prospects and outlook. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements.

### **These factors include but are not limited to:**

- Changes in general economic, political or market conditions, including the cyclical nature of some of the Company's businesses;
- Significant disruptions in air travel (including as a result of the spread of disease or terrorist attacks);
- Disruptions to the Company's industrial operations and / or supply chain, whether due to economic or geopolitical factors or other threats (including physical or cyber security threats);
- Currency exchange rate fluctuations, in particular between the Euro and the U.S. dollar;
- The successful execution of internal performance plans, including cost reduction and productivity efforts;
- Product performance risks, as well as programme development and management risks;
- Customer, supplier and subcontractor performance or contract negotiations, including financing issues;
- Competition and consolidation in the aerospace and defence industry;
- Significant collective bargaining labour disputes;
- The outcome of political and legal processes, including the availability of government financing for certain programmes and the size of defence and space procurement budgets;
- Research and development costs in connection with new products;
- Legal, financial and governmental risks related to international transactions or affecting global trade (e.g. tariffs);
- Legal and investigatory proceedings and other economic, political and technological risks and uncertainties;
- Changes in societal expectations and regulatory requirements about climate change;
- The lingering effects of the COVID-19 pandemic; and
- Aggravation of adverse geopolitical events, including the war in Ukraine (and the resulting export control restrictions and sanctions), and conflicts or rising military tensions around the world.

As a result, Airbus SE's actual results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.

For more information about the impact of the Macroeconomic Environment, see Note 3 “Geopolitical and Macroeconomic Environment” of the Notes to the Airbus SE Unaudited Condensed Interim IFRS Consolidated Financial Statements for the nine-month period ended 30 September 2025 published 29 October 2025 (the “Financial Statements”). For more information about factors that could cause future results to differ from such forward-looking statements, please refer to Airbus SE's most recent annual reports, including the Report of the Board of Directors published on 20 February 2025 (including the most recent Risk Factors), the Financial Statements and the Notes thereto.

Any forward-looking statement contained in this presentation speaks as of the date of this presentation. Airbus SE undertakes no obligation to publicly revise or update any forward-looking statement in light of new information, future events or otherwise.

**Rounding disclaimer:** Due to rounding, numbers presented may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Around  
**820**

Commercial aircraft  
deliveries

Around  
**€ 7.0 bn**

EBIT Adjusted

Around  
**€ 4.5 bn**

FCF before  
customer financing

As the basis for its 2025 guidance, the Company assumes no additional disruptions to global trade or the world economy, air traffic, the supply chain, its internal operations and ability to deliver products and services.

The Company's 2025 guidance now includes the impact of currently applicable tariffs.

The guidance also includes the impact of the integration of certain Spirit AeroSystems work packages based on preliminary estimates and an assumed closing in the fourth quarter of 2025.

The anticipated impact of the integration of certain Spirit AeroSystems work packages on the Company's guidance remains broadly in line with previous estimates.

# Key Priorities

17

Continue to deliver on our  
**commercial aircraft ramp-up**

Successfully manage the

# Glossary on Alternative Performance Measures (APM)

36

This presentation also contains certain “non-GAAP financial measures”, i.e. financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with IFRS. For example, Airbus makes use of the non-GAAP measures “EBIT Adjusted”, “EPS Adjusted” and “Free Cash Flow”.

Airbus uses these non-GAAP financial measures to assess its consolidated financial and operating performance and believes they are helpful in identifying trends in its performance. These measures enhance management’s ability to make decisions with respect to resource allocation and whether Airbus is meeting established financial goals.

Non-GAAP financial measures have certain limitations as analytical tools, and should not be considered in isolation or as substitutes for analysis of Airbus’ results as reported under IFRS. Because of these limitations, they should not be considered substitutes for the relevant IFRS measures.

- **EBIT:** Airbus continues to use the term EBIT (Earnings before interest and taxes). It is identical to Profit before finance cost and income taxes as defined by IFRS Rules.
- **Adjustment** is an alternative performance measure used by Airbus which includes material charges or profits caused by movements in provisions related to programmes, restructuring or foreign exchange impacts as well as capital gains/losses from the disposal and acquisition of businesses.
- **EBIT Adjusted:** Airbus uses an alternative performance measure, EBIT Adjusted as a key indicator capturing the underlying business margin by excluding material charges or profits caused by movements in provisions related to programmes, restructuring or foreign exchange impacts as well as capital gains/losses from the disposal and acquisition of businesses.
- **EPS Adjusted** is an alternative performance measure of a basic EPS as reported whereby the net income as the numerator does include Adjustments. For reconciliation see slide “Detailed Income Statement and Adjustments”.
- **Gross cash position:** Airbus defines its consolidated gross cash position as the sum of (i) cash and cash equivalents and (ii) securities (all as recorded in the consolidated statement of financial position).
- **Net cash position:** Airbus defines its consolidated net cash position as the sum of (i) cash and cash equivalents and (ii) securities, minus (iii) financing liabilities, plus or minus (iiii) interest rate contracts related to fair value hedges (all as recorded in the Consolidated Statement of Financial Position).
- **Gross cash flow from operations:** Gross cash flow from operations is an alternative performance measure and an indicator used by Airbus to measure its operating cash performance before changes in other operating assets and liabilities (working capital). It is defined as cash provided by operating activities, excluding (i) changes in other operating assets and liabilities (working capital), (ii) contribution to plan assets of pension schemes and (iii) realised foreign exchange results on treasury swaps.
- **Changes in working capital:** it is identical to changes in other operating assets and liabilities as defined by IFRS Rules. It is comprised of inventories, trade receivables, contract assets and contract liabilities (including customer advances), trade liabilities, and other assets and other liabilities.
- **FCF:** It is an alternative performance measure and key indicator which allows the Company to measure the amount of cash flow generated by its operations. The Company defines Free Cash Flow as the sum of (i) cash provided by operating activities and (ii) Investments in intangible and fixed assets (net) & Dividends paid by companies valued at equity, minus (iii) contribution to plan assets of pension schemes, (iv) realised foreign exchange results on treasury swaps and (v) change in cash from changes in consolidation.
- **FCF before Customer Financing** refers to Free Cash Flow adjusted for cash flow related to aircraft financing activities. It is an alternative performance measure and indicator used by the Company in its financial guidance.
